

ANATOLE F. IANOVIC MT

The Romanian magazine *Componist-Buletin Problemistic* is announcing the **Memorial Tournament dedicated to Anatole F. Ianovic (1897-1986)**, in order to commemorate **35 years** from his passing away.

The tourney is for **direct problems with mate in 2 moves**, containing **at least one grasshopper and/or at least one nightrider** (other fairy pieces/conditions are not allowed), showing the **Ianovic theme**: in the initial position, two black pieces A and B are half-pinned; after the key, a white line-piece C (= Q, R, B, G, N) is pinned by B (it could be already pinned); in the thematic variation, A plays, self-pinning B and, due to a black interference, allows C to give mate with a Pelle move (a move on the pin-line).
