

**Announcement of
Andrew Kalotay 80th Jubilee Theme Tourney
Helpmate in 3 or more moves.
The judge: Christopher Jones.
Sponsored by Kalotay & Benko Families**

On February 2, 2021, on the occasion of Andrew Kalotay's 80th birthday, the Kalotay and Benko Families are together hosting a jubilee theme tourney. We are grateful to distinguished FIDE Grandmaster of Chess Composition Christopher Jones for agreeing to be the judge, and Janos Mikitovics, for agreeing to be Tournament Director.

The theme is: In the first move, a black piece A captures a white piece. In the mate move, white captures the black piece A on the same square. Examples: below.

No limit regarding the number of entries sent by a composer.

Submissions must be tested by the Alybadix, Gustav, Popeye or WinChloe programs.

Participants should state which software they used.

Fairy pieces and conditions are not allowed.

Submission deadline: May 15, 2021.

Send your entries to Janos Mikitovics, j.mikitovics@gmail.com with subject: for Andrew Kalotay 80 JT.

The Director will send standardized anonymous diagrams of the submissions to the judge by May 31, 2021. The judge will decide the winners by June 30, 2021.

The Preliminary Award will be published on the Hungarian Chess Composers website (<https://magyarsakkszerzok.hu/>) by July 15, 2021, and will be declared as the Final Award two months later, to allow for contestation.

The prize money pool is: € 2,500.

The Final Award will be announced in *The Problemist*, and also on the Hungarian Chess Composers website. Please forward this announcement to interested parties, and reprint it in magazines or websites aimed at composers.

We thank you in advance for your participation in the Jubilee Tourney, and hope this will be a pleasant birthday surprise for our family member and friend Andrew Kalotay.

Kalotay & Benko Families
